

C U R R I C U L U M V I T A E

Joe Grand aka Kingpin

February 19, 2023

1993-1997

B.S., Computer Engineering, Boston University, College of Engineering, Boston, Massachusetts.

1993-2000

Director and Design Engineer, L0pht Heavy Industries, Watertown, Massachusetts.

1998-2000

Electrical Engineer, Design Continuum, West Newton, Massachusetts.

2000-2002

Co-Founder and Research Scientist, @stake, Cambridge, Massachusetts.

2005-2006

Co-Founder and Hardware Engineer, Chumby, San Diego, California.

2007-2008

Co-Host and Electrical Engineer, Prototype This, Discovery Channel.

2010

Hon.DTech, University of Advancing Technology, Tempe, Arizona.

2002-present

Founder and Principal Engineer, Grand Idea Studio, Portland, Oregon.

2021-present

Founder, offspec.io.

OUTSIDE BOARDS

2004-2013

Technical Advisor, MAKE Magazine, Sebastopol, California.

2010-2013

Technical Advisor, MakerBot Industries, Brooklyn, New York.

2014-2018

Advisor, Crowd Supply, Portland, Oregon.

SELECTED PRODUCTS

- (Q1) A.T. Cross iPen : Battery-powered electronic stylus and drawing tablet for use with a desktop PC, Contributed to design modifications of the pre-production units, June 1997.
- (Q2) FluidSense FS-01 Infusion Pump : Handheld, battery-operated infusion pump, Features include user authentication, precision fluid control, data collection, infrared data transfer capabilities, and 96-hour battery life, Co-designer, Featured in Inventions of the Year, Time Magazine December 2000.
- (Q3) Bio-Rad Moto Alpha Unit : Motorized, heated lid unit for Bio-Rad's family of DNA Engine Thermal Cyclers, Features include automated lid control and accurate pressure sensor feedback, Co-designer, December 2000.
- (Q4) SCSIcide : Cartridge-based video game for the Atari 2600 VCS console, August 2001.
- (Q5) pdd : Memory imaging tool for forensic analysis of Palm-based PDAs, November 2001.
- (Q6) Redemption 5200 : Videogame controller adapter which allows the use of Atari 2600, Atari 7800, Sega Genesis, and PC controllers on the Atari 5200, July 2003.
- (Q7) thesmartgolfer Laser Putting Alignment System : Laser training aid for golf putting providing instant feedback on targeting, clubface orientation, and the ball impact zone, September 2003.
- (Q8) Emic Text-to-Speech Module : Fully integrated unit that converts a stream of digital text into a high-quality English-speaking voice, September 2003.
- (Q9) Stelladaptor : Atari 2600 controller-to-USB interface, Allows classic-style joysticks, paddles, and driving controllers to be used on modern PCs, March 2004.
- (Q10) Safety 1st SmartLight Stair Gate : Child safety gate containing motion-activated lights that illuminate the stairway and landing upon approach, Developed the initial proof-of-concept prototype, August 2004.
- (Q11) Gamecaster Cybercam Controller : Revolutionary camera that connects to live multiplayer video game matches, enabling pro-sports cameramen to shoot the virtual action from "within" the game, August 2004.
- (Q12) Parallax RFID Reader Module, Serial Interface : Low-cost module for radio frequency identification (RFID) applications, Reads 125kHz passive RFID tags from up to four inches away, May 2005.
- (Q13) Atari FlashBack 2 Classic Game Console : Dedicated console with 40 built-in games, Modeled after the 1977 release of the Atari 2600 Video Computer System (VCS), Developed the paddle detection algorithms used in selected games, August 2005.
- (Q14) Optical Dance Pad : Contactless dance pad controller for video game systems, August 2005.
- (Q15) StenoCast X7 : Bluetooth-enabled device that provides realtime, point-to-multipoint transmission of a court reporter's transcription data, September 2005.
- (Q16) DEFCON 14 Conference Badge : Event badge for the largest and oldest continuously running hacker and computer security convention in the world, Contains active electronics mounted on an artistically designed printed circuit board, August 2006.
- (Q17) chumby : Wi-Fi enabled content delivery device designed to be used around the home to display real-time, user-customizable information, August 2006.
- (Q18) Parallax GPS Receiver Module : Low-cost module for global positioning system (GPS) applications, September 2006.
- (Q19) DEFCON 15 Conference Badge : Event badge for the largest and oldest continuously running hacker and computer security convention in the world, Contains active electronics to scroll custom text messages on a 95 LED matrix, Other features include capacitive sensing buttons and support for accelerometer and wireless functionality, Top Ten Finalist of the Freescale Black Widow Design Challenge, August 2007.

- (Q20) Perseus Athletics Posture-Tek : System and mechanism to detect and silently alert the user when poor posture occurs, Designed to ensure proper, user-defined posture during exercise or everyday life, December 2007.
- (Q21) DEFCON 16 Conference Badge : Event badge for the largest and oldest continuously running hacker and computer security convention in the world, Contains active electronics to transmit and receive data via infrared, Other features include SecureDigital memory card support, LED animations, and artistic elements, August 2008.
- (Q22) BSODomizer : Covert electronic device that injects a fake BSOD (Blue Screen of Death) onto a computer monitor at random time intervals, Interfaces between a target computer and a VGA monitor, August 2008.
- (Q23) Parallax RFID Reader Module, USB Interface : Low-cost module for radio frequency identification (RFID) applications, Reads 125kHz passive RFID tags from up to four inches away, Easy connection to host computer via bus-powered USB interface, August 2008.
- (Q24) DEFCON 17 Conference Badge : Event badge for the largest and oldest continuously running hacker and computer security convention in the world, Contains active electronics to affect the state of a multicolor LED based on audio input, Other features include multi-badge communication and artistic elements, July 2009.
- (Q25) AVRSimon : Educational kit designed to introduce students to electronics, soldering, and hands-on assembly, February 2010.
- (Q26) Parallax RFID Read/Write Module : Low-cost module for radio frequency identification (RFID) applications, Reads and writes 125kHz passive RFID tags with support for up to 116 bytes of user data storage and optional security features, March 2010.
- (Q27) DEFCON 18 Conference Badge : Event badge for the largest and oldest continuously running hacker and computer security convention in the world, Contains active electronics mounted on an artistically designed, aluminum substrate, laser engraved printed circuit board, Features include a miniature liquid crystal display (LCD), USB connectivity, seamless power switching, and hidden functionality for a variety of contests held at the conference, July 2010.
- (Q28) Mobile Monitor Technologies Field Monitor Pro / Monitor2Go : The world's first portable monitor that provides an immediate secondary display through a simple USB connection, August 2010.
- (Q29) Laser Range Finder Module : Low-cost distance measuring instrument that uses laser light and a camera to determine distance to a targeted object, September 2011.
- (Q30) Emic 2 Text-to-Speech Module : Fully integrated, multi-language voice synthesizer that converts a stream of digital text into natural sounding speech output, July 2012.
- (Q31) Philips Color Kinetics OLED Tile : Light fixture concept created to explore the use of organic light-emitting diode (OLED) technology in a modular and interactive manner, Features include a removable 6.8-inch OLED panel, individual addressing and control via WiFi or Ethernet, tilt sensing, and on-board Li-Ion battery and charging, November 2012.
- (Q32) JTAGulator : Engineering research and development tool that assists in identifying on-chip debug (OCD) and/or programming connections from test points, vias, or component pads on a target electronic device, April 2013.
- (Q33) Solidoodle Press : Entry-level 3D printer with 8 x 8 x 8-inch build volume, heated build platform, and auto-calibration technology, Contributed to the design of the LED ring and button interface, January 2015.
- (Q34) OpticSpy : A suite of optical receiver modules that provide an easy-to-use platform for exploring, evaluating, and experimenting with optical data transmissions, October 2016.

- (Q35) Parallax RFID Read/Write Module, USB Interface : Low-cost module for radio frequency identification (RFID) applications, Reads and writes 125kHz passive RFID tags with support for up to 116 bytes of user data storage and optional security features, Easy connection to host computer via bus-powered USB interface, February 2018.
- (Q36) DEFCON China 1.0 Conference Badge : Event badge for the first international edition of DEFCON, the largest and oldest continuously running hacker and computer security convention in the world, Contains active electronics mounted on an artistically designed, flexible circuit board, Features include 32 individually-addressable LEDs, motion sensing, USB connectivity, and game functionality for use at the conference, May 2019.
- (Q37) DEFCON 27 Conference Badge : Event badge for the largest and oldest continuously running hacker and computer security convention in the world, Combines natural elements with active electronics, Features include handcrafted Brazilian quartz gemstone, near-field magnetic induction wireless communication, and game functionality for use at the conference, August 2019.
- (Q38) Pizza Compass : Handheld device that directs the user to the nearest pizza place no matter where they are in the world, Combines GPS, digital compass, Internet connectivity, visual indicators, and an artistically designed circuit board, December 2020.
- (Q39) The World's Thinnest Boombox : Retro-style portable sound system, Features ultra-thin piezo speaker elements, capacitive touch sensing buttons, visual indicators, and an artistically designed circuit board, November 2022.

Hobbyist and experimental products not included.

PATENTS

- (I1) U.S. Patent No. 7,181,560 : Method and Apparatus for Preserving Computer Memory Using Expansion Card

Inventor(s):

Grand; Joseph (Brookline, MA)
Carrier; Brian (Bow, NH)

Filed / Issued Dates:

Dec. 21, 2001 / Feb. 20, 2007

- (I2) U.S. Patent No. 7,403,220 : Apparatus, Methods, and Systems for Viewing and Manipulating a Virtual Environment

Inventor(s):

MacIntosh; David (San Diego, CA)
Morelock; David M. (Santee, CA)
Grand; Joseph (San Diego, CA)

Filed / Issued Dates:

Aug. 23, 2004 / Jul. 22, 2008

- (I3) U.S. Patent No. 7,249,846 : Eyewear with an Image Projected off of an Unassisted Eyewear Lens to the User

Inventor(s):

Grand; Joseph B. (San Diego, CA)
Morelock; David M. (Kenmore, WA)

Manalo; Gil David (Redmond, WA)
Cruz; Ricardo Antonio (San Diego, CA)

Filed / Issued Dates:

May 3, 2005 / Jul. 31, 2007

(I4) U.S. Patent No. D592,678 : Audiovisual Device

Inventor(s):

Adler; Steven M. (San Diego, CA)
Grand; Joseph B. (San Francisco, CA)
Huang; Andrew S. (Cardiff-by-the-Sea, CA)
Maxwell; Duane S. (San Diego, CA)
Meyerhoffer; Thomas Erik (Montara, CA)
Steele; Kenneth E. (Del Mar, CA)
Tomlin; Stephen L. (San Diego, CA)

Filed / Issued Dates:

May 19, 2008 / May 19, 2009

(I5) U.S. Patent No. D665,551 : Heat-Sealed Waste Disposal

Inventor(s):

Grand; Joseph B. (San Francisco, CA)
Fiegenger; John D. (Marblehead, MA)
Wald; Samuel (Marblehead, MA)
Gernetzke; Thomas (Charlestown, MA)
Vespa; William (Salem, MA)
Liteplo; William (Wakefield, MA)
McDaid; Cornelius (Randolph, MA)
Berg; Brenda G. (Raleigh, NC)

Filed / Issued Dates:

Sep. 19, 2011 / Aug. 14, 2012

(I6) U.S. Patent No. 8,839,224 : System and Method for Automatically Updating the Software of a Networked Personal Audiovisual Device

Inventor(s):

Adler; Steven M. (San Diego, CA)
Grand; Joseph B. (San Francisco, CA)
Huang; Andrew S. (Cardiff, CA)
Maxwell; Duane S. (San Diego, CA)
Steele; Kenneth E. (San Diego, CA)
Tomlin; Stephen L. (San Diego, CA)

Filed / Issued Dates:

August 24, 2007 / September 16, 2014

(I7) U.S. Patent No. 9,654,589 : Configurable Personal Audiovisual Device for use in Networked Application-Sharing System

Inventor(s):

Adler; Steven M. (San Diego, CA)
Grand; Joseph B. (San Diego, CA)
Huang; Andrew S. (Cardiff-by-the-Sea, CA)

Maxwell; Duane S. (San Diego, CA)
Steele; Kenneth E. (San Diego, CA)
Tomlin; Stephen L. (San Diego, CA)

Filed / Issued Dates:
Aug. 24, 2006 / May 16, 2017

Patent applications not shown.

- (P39) Grand J : Stories and Stuff (Keynote), ToorCamp 2012, Neah Bay, Washington, August 9, 2012.
- (P40) Grand J : JTAGulator: Assisted discovery of on-chip debug interfaces, DESIGN West, San Jose, California, April 24, 2013.
- (P41) Grand J : Using Superpowers for Hardware Reverse Engineering, EE Live! 2014, San Jose, California, April 3, 2014.
- (P42) Kingpin (Grand J) : Deconstructing the Circuit Board Sandwich: Effective Techniques for PCB Reverse Engineering, DEFCON 22, Las Vegas, Nevada, August 10, 2014.
- (P43) Grand J : Tools of the Hardware Hacking Trade, RSA Conference 2015, San Francisco, California, April 22, 2015.
- (P44) Grand J : Making Magical Mustaches with Mustache Mayhem, DorkbotPDX, Portland, Oregon, May 4, 2015.
- (P45) Grand J : Stories from the Hardware Startup World, Hardware Massive, Portland, Oregon, May 11, 2016.
- (P46) Grand J, Grand B, & Grand M : Activate Engineer Powers! Creating a Real-Life Creaturepod, ToorCamp 2016, Orcas Island, Washington, June 11, 2016.
- (P47) Kingpin (Grand J) & Zoz : BSODomizer HD: A mischievous FPGA and HDMI platform for the (m)asses, DEFCON 24, Las Vegas, Nevada, August 5, 2016.

- (P48) Kingpin (Grand J) & FitzPatrick J : 101 Ways to Brick Your Hardware, DEFCON 24, Las Vegas, Nevada, August 5, 2016.
- (P49) Grand J : Experiments with Optical Covert Channels, BSidesPDX 2016, Portland, Oregon, October 14, 2016.
- (P50) Grand J : Hacking a Tooth Tunes Toothbrush for a Positive Dental Outlook, BSidesPDX 2017, Portland, Oregon, October 21, 2017.
- (P51) Grand J : Turning Science into Startups: Lessons from Television and the Real World, DARPA Bay Area SDR Hackfest, Moffett Field, California, November 16, 2017.
- (P52) Grand J : Hacking, Phreaking, and Juvenile Delinquency (Keynote), CypherCon 3.0, Milwaukee, Wisconsin, April 12, 2018.
- (P53) Kingpin (Grand J) & L0pht Heavy Industries : A Disaster Foretold - And Ignored: Revisiting the First-Ever Congressional Cybersecurity Hearing, Testimony, Congressional Internet Caucus Academy, Washington, D.C., May 23, 2018.
- (P54) Grand J : Searching for the Light: Adventures with OpticSpy, DEFCON 26, Las Vegas, Nevada, August 12, 2018.
- (P55) Grand J : Passion Before Fashion: Stories From a Life of Hacking (Keynote), Roadsec, São Paulo, Brazil, November 10, 2018.
- (P56) Kingpin (Grand J) : Creating the DEFCON China 1.0 Badge, DEFCON China 1.0, Beijing, China, May 31, 2019.
- (P57) Kingpin (Grand J): Behind the Scenes of the DEFCON 27 Badge, DEFCON 27, Las Vegas, Nevada, August 9, 2019.
- (P58) Grand J : When Hacking and Engineering Collide (Keynote), AltiumLive 2019, San Diego, California, October 9, 2019.
- (P59) Grand J : Through the Eyes of a Hardware Hacker (Keynote), IEEE-USA EVOPro (Virtual), September 1, 2021.
- (P60) Grand J : That time I hacked a hardware wallet and recovered \$2 million..., ISACA Sweden Spring Conference 2022, Stockholm, Sweden, March 27, 2022.
- (P61) Grand J : Never Mind the Bollocks, Here's Joe Grand (Keynote), Kernelcon, Omaha, Nebraska, April 1, 2022.
- (P62) Grand J : Adventures of Wallet Hacking (Keynote), hardwear.io USA 2022, Santa Clara, CA, June 9, 2022.
- (P63) Grand J : Sneaky Circuits: An Overview of Hardware-Based Espionage, AT&T Security Conference 2022 (Virtual), October 4, 2022.
- (P64) Grand J : Fresh Beats: Creating The World's Thinnest Boombox (Keynote), Hackaday Superconference 2022, Pasadena, California, November 5, 2022.

MISCELLANEOUS

- (M1) Kingpin (Grand J) : Answering Machine Remote Accessibility of Supervisory Functions, L0pht Heavy Industries Security Advisory, September 8, 1998.
- (M2) Kingpin (Grand J) : MAC Address Cloning, Published on L0pht Heavy Industries website, December 1998.
- (M3) Winner of the PalmGear H.Q. scholarship, given to influential developers within the Palm OS development community, PalmSource '99, Santa Clara, California, October 21, 1999.
- (M4) Kingpin (Grand J) : A Practical Introduction to the Dallas Semiconductor iButton, Published on @stake website, February 2000.
- (M5) Kingpin (Grand J) & DilDog : CRYPTOCARD PalmToken PIN Extraction, @stake Security Advisory, April 10, 2000.
- (M6) Kingpin (Grand J) : eToken Private Information Extraction and Physical Attack, @stake Security Advisory, May 4, 2000.
- (M7) Kingpin (Grand J), DilDog, & Brian Carrier : Rainbow Technologies' iKey 1000 Administrator Access and Data Compromise, @stake Security Advisory, July 20, 2000.
- (M8) Kingpin (Grand J) & DilDog : PalmOS Password Retrieval and Decoding, @stake Security Advisory, September 26, 2000.
- (M9) Kingpin (Grand J) : SafeWord e.iD Palm Authenticator PIN Extraction, @stake Security Advisory, December 14, 2000.
- (M10) Kingpin (Grand J) : DS1991 MultiKey iButton Dictionary Attack Vulnerability, @stake Security Advisory, January 18, 2001.
- (M11) Kingpin (Grand J) & Mudge : Initial Cryptanalysis of the RSA SecurID Algorithm, Published on @stake website, January 18, 2001.
- (M12) Briefed the United States Special Assistant for Global Affairs, National Coordinator for Security and Counterterrorism, and Special Advisor for Cybersecurity on discovered security weaknesses of PDA devices. Resulted in governmental policy changes regarding the use of PDAs for sensitive information storage, January 2001.
- (M13) Kingpin (Grand J) : Palm OS Password Lockout Bypass, @stake Security Advisory, March 1, 2001.
- (M14) Panelist, Programming the Atari 2600, Classic Gaming Expo, Las Vegas, Nevada, August 12, 2001.
- (M15) Guest Speaker, Ecole Bilingue: The French-American International School of Boston, Discussion of computer security, technology, and privacy issues, Cambridge, Massachusetts, May 13, 2002.
- (M16) Received Honorable Mention for "Tribble: A hardware forensics tool for memory image retrieval" product concept at the 2004 Invent Now America! Exposition, an invention search aimed to discover outstanding examples of the ingenuity present throughout all facets of society, March 2004.
- (M17) Provided comments and research to help form the National Institute of Standards and Technology Special Publication 800-72, Guidelines on PDA (Personal Digital Assistant) Forensics, which was developed to help organizations evolve appropriate policies and procedures for dealing with PDA forensics and to provide forensic specialists with a background on the technology, tools, and principles involved, August 2004.
- (M18) Adjunct Professor, University of Advancing Technology, Tempe, Arizona, October 2004.
- (M19) Maker Fair, Invited Contributor, O'Reilly Emerging Technology Conference 2005, San Diego, California, March 16, 2005.

- (M20) Guest Speaker, United States Military Academy at West Point, Discussions of computer security and hardware hacking, New York, March 2008.
- (M21) Grand J & Northen M : General Session Surprise Guest, SolidWorks World 2009, Orlando, Florida, February 11, 2009.
- (M22) Judge, Department of Electrical Engineering and Computer Science Capstone Design Project Competition, United States Military Academy at West Point, April 30, 2009.
- (M23) Discovered security vulnerabilities related to the smartcard interface of San Francisco's smart parking meter implementation allowing unlimited card value, Provided details and suggestions to the San Francisco Municipal Transportation Agency to help prevent fraudulent attacks, August 2009.
- (M24) Featured in When Gadgets Betray Us: The Dark Side of Our Infatuation With New Technologies, Chapter 5, Basic Books, New York, ISBN 9780465019588, March 2011.
- (M25) Received commercial contract from DARPA's Cyber Fast Track for a project entitled Research and Analysis of PCB Deconstruction Techniques, which aims to research, test, characterize, and document a variety of techniques useful in the deconstruction of a printed circuit board (PCB), June 4, 2013.
- (M26) Judge, The Hackaday Prize, A design contest that challenges hardware hackers to change their world by creating open, connected devices, April-October 2014.
- (M27) Guest Speaker, Cyber Stars Camp, Dakota State University, A free camp funded by the National Science Foundation to introduce and educate high school students to computer security through hands-on activities and sessions, Madison, South Dakota, July 21-22, 2014.
- (M28) Mustache Mayhem : Mixed media and electronics art project that challenges the paradigms of personal privacy and entertainment, Byte Me 4.0, AFRU Gallery, Portland, Oregon, February 2015.
- (M29) Provided comments for the Department of Homeland Security's Office of Cyber and Infrastructure Analysis (OCIA) Future Considerations for Cyber-Physical Infrastructure in Smart Cities report, which was developed to examine and address potential future cybersecurity vulnerabilities in the transportation, energy, and water/wastewater sectors, March 2015.
- (M30) Guest Speaker, Catlin Gabel School, Discussion of hacking, engineering, and entrepreneurship, Portland, Oregon, April 15, 2015.
- (M31) Mentor, Proving Ground Speaker Development Program, BSidesLV 2015, Provide mentorship and guidance for first time national conference speakers, August 2015.
- (M32) Program Committee, 9th USENIX Workshop on Offensive Technologies (WOOT '15), August 2015.
- (M33) Moderator, Crowdbuilding: Building Hardware Here and There, South by Southwest (SXSW) Interactive, Austin, Texas, March 14, 2016.
- (M34) Mentor, High School Senior Project, Portland Waldorf School, Provide mentorship and guidance on the creation of a USB HID keystroke injection tool, May 2016-March 2017.
- (M35) Review Committee, REcon 2016, June 2016.
- (M36) Panelist, Cyber Threats to Domestic Systems, Cyber Endeavour 2016, Monterey, California, June 22, 2016.
- (M37) Served as subject matter expert consultant to independently evaluate technical claims related to St. Jude Medical v. Muddy Waters Consulting, et al., September-October 2016.
- (M38) Mentor, High School Senior Project, Portland Waldorf School, Provide mentorship and guidance on the creation of an omnidirectional robot, June 2017-March 2018.

- (M39) Review Committee and Manuscript Mentor, 43rd International Symposium for Testing and Failure Analysis (ISTFA), November 2017.
- (M40) Guest Speaker, Coleman Elementary School, Discussion of prototyping and engineering, San Rafael, California, November 16, 2017.
- (M41) Panelist, The L0pht Testimony: 20 Years Later (and Other Things You Were Afraid to Ask), DEFCON 26, August 10, 2018.
- (M42) Panelist, Hardware Implant Panel, BSidesPDX 2018, Portland, Oregon, October 27, 2018.
- (M43) Program Committee, 6th International Symposium on Research in Grey-Hat Hacking (GreHack 2018), November 2018.
- (M44) Judge, BadgeLove by Hackster, A design contest for beautiful, weird, and artistic electronic circuit boards, November 2018-April 2019.
- (M45) Judge, MacroFab Design Contest: Useless Machines, June-August 2019.
- (M46) Panelist, Void If Removed: Securing Our Right to Repair, DEFCON 27, Las Vegas, Nevada, August 10, 2019.
- (M47) Guest Speaker, Portland Winterhawks, Discussion of social media, privacy, and security, Portland, Oregon, January 22, 2020.
- (M48) Guest Speaker, Princeton University, Discussion of hardware espionage and supply chain security, April 20 and 22, 2020.
- (M49) Webcast, Hardware Hacking Party Tricks: Techniques for Exploring, Manipulating, and Exploiting Embedded Systems, Black Hat, April 22, 2021.
- (M50) Guest Speaker, Portland Winterhawks, Discussion of the Internet as a media and disinformation platform, Portland, Oregon, April 23, 2021.
- (M51) Invited Participant, Kernelcon Hack Live, Presented with a hardware hacking challenge to solve in real time while attendees observe, and potentially sabotage, the process, April 30, 2021.
- (M52) Review Committee, IEEE Transactions on Emerging Topics in Computing, June 2021.
- (M53) Guest Speaker, Politecnico di Milano, Discussion of hardware hacking and embedded system security, Milan, Italy, November 8, 2021.
- (M54) Guest Speaker, Lewis & Clark, Discussion of hacking, engineering, and entrepreneurship, Portland, Oregon, April 5, 2022.
- (M55) Guest Speaker, Bitcoin & Blockchain Brisbane, Australia (Virtual), Discussion of cryptocurrency and hardware hacking, April 21, 2022.
- (M56) Guest Speaker, ELCHK Lutheran Academy, Hong Kong (Virtual), Discussion of cybersecurity, scams, and online safety, May 5, 2022.
- (M57) Panelist, Brazil Redux: Short Circuiting Tech-Enabled Dystopia with the Right to Repair, DEFCON 30, Las Vegas, Nevada, August 13, 2022.
